Mr. Michael Vandiver
President
Razor Golf, Inc.
6832 Commerce Ave.
Port Richey, FL 34668

Dear Mr. Vandiver:

Decision: 2012- 591

This is in reference to the **Eclipse** 10.5° metal woodhead, received on August 9, 2012, which you submitted for an official ruling.

Please be advised that your metal woodhead (see attached description of the club submitted) conforms to the Rules of Golf. However, I wish to inform you that if any other clubs identical in design are tested, there is a possibility that they will not conform to the standard for spring-like effect. The reason for this is that the spring-like effect of the club exceeds the specified limit, but falls within the tolerance zone.

This ruling applies only to the sample submitted and any clubs manufactured identical to it. This ruling does not apply if there is any change in the design, manufacture, material or construction of this particular club. If a club of similar design, with identical markings is acquired from any source and found to fail USGA standards, then the conformance status of the club will be reviewed.

In advertisements of the **Eclipse** 10.5° metal woodhead, you are authorized to make the statement: "**Conforms with USGA Rules.**" Use of the USGA seal or logo and/or statements such as "USGA Approved" or "USGA Tested" is prohibited.

We are retaining the sample as a record of this decision.

The USGA reserves the right to change the Rules and interpretations regulating equipment at any time.

Sincerely,

Dick Ruggie
Senior Technical Director
